

January News

Wow! This year is going by quickly! Our class completed Unit 4, in LEAD 21. While remembering the importance of natural resources, they enjoyed making collages.

Moving on, my students will learn the social studies concepts of family, community, and national history, in Unit 5, Stories of Our Past.

Our class will complete Unit 5, in Everyday Math soon.

They will work with addition and subtraction facts, through the use of addition/subtraction facts tables, and fact triangles, and other devices, in Unit 6.

******* JANUARY BIRTHDAYS *******

Aulysha Lester January 1st

Saige Smith January 6th
