**202 W. 7<sup>TH</sup> OVERBROOK, KS 66524**

---

To: Dr. Steve Pegram and Board of Education  
From: David Fernkopf, OAC Principal  
Date: February 4, 2015  
Subject: February Building Report

### **Book Fair**

The Scholastic Book fair was open the first week in February at OAC. The staff and students were excited to see what new books were available.

### **Kansas Day**

On January 29<sup>th</sup> we celebrated Kansas day in our classrooms. Each grade level did different activities with the students to celebrate Kansas's birthday. Activities included crafts, singing, and learning about different Kansas symbols.

### **100<sup>th</sup> Day of School**

We celebrated 100 days of school on February 2<sup>nd</sup>. Our students at OAC did many activities celebrating our accomplishments so far this school year.

### **Fill A Bucket**

Students' behavior has been going well, and the students have almost filled the OAC bucket again. They will be rewarded with a popcorn and movie party at the end of this month. We are really excited about the great behaviors that we have been seeing at school this year.

### **Update on OAC Building Goals**

#### **Curriculum**

We are still working on BYOC each month. This is a slow process for our teachers, but it really seems to be coming together.

#### **McRel**

All the teachers met with me before the Winter Break and we visited about their goals and how they felt the school year has been going. I am happy with the teacher progress on their goals so far. I have also been doing evaluations for teachers that are due mid-February.

#### **Communication**

I am still using Facebook , doing weekly memos, and monthly school newsletters. I went to a social media conference and I am looking in to the ways that we might be able to use Twitter.

#### **Developing as a Professional**

Five teachers and myself went to Lyndon to observe a supplemental reading program called Lexia. We are really excited about the opportunity to use the program. It seems like it could really help fill in some of the holes we have in reading.

**Data**

We are still using Aimsweb to collect our data. We are now start to progress monitor our students every other week to really track their progress. After the last board meeting, if you have any question about the data, please let me know and I will answer any of your questions.
