SPORTS PHYSICALS FOR 2017-18 AT SFT

Dr. Charles Shively D.C. will be performing sports physicals at the High School and Carbondale Attendance Center on May 8, 2017. This will cover the upcoming 2017-2018 school year. There will be a \$20 fee and Dr. Shively is generously donating half of that money back to the athletic programs at Santa Fe Trail. We will need at least 10 participants to secure this event. Anyone with a complicated medical history should see their regular doctor for their routine physical. Appointments can be made by contacting the school nurse.

THE ART DEPARTMENT

NELSON-ATKINS MUSEUM OF ART FIELD TRIP

Nine talented art students from the high school accompanied Mrs. Doreen, Mrs. Riggs, and the Advanced Art class from the junior high on a museum art field trip. They visited the Nelson-Atkins Museum of Art in Kansas City on a wet and windy April 5th. This was a wonderful opportunity to expose our young artists to a variety of pieces from early Egyptian through today's contemporary work. All students will be creating their own artwork inspired by a piece from the museum.

WOODSHOP

Individualized construction of various proportions

The Industrial Education and engineering classes are building up a storm. We are so pleased with the recent rains and knowing that our classrooms which include the drafting room and the woodshop have stayed completely dry with the new ramp cover installed last summer.

There is not one rainy day that the memory of a wet basement and moving classrooms doesn't enter our minds. Thanks to everyone who had a hand in last year's cleanup and for those helping us get the ramp covered so we could forget about the problem....very effective problem solving. Very much appreciated!

As we prepare for our Woodworking show on April 20, from 6:00 to 7:00 in the high school commons, I figured I would show you a few items that have been constructed by the woodworking classes and architectural design class this school year.

Carter Greenfield shows off his vintage wooden American flag made in class.

Bryce Isabell in leaning on an oak coffee table chest that he made.

Calvin Young and Ian Trego each made a nice table.

Matthew Wurm is building a couple of score table for the baseball diamonds. Apryl Mulford is working a vanity desk and is ready to add the drawers.

Architectural design class has been designing tiny homes. Every student designed one which best met their needs. They are now designing and drawing their dream home with the computer aided design program.
