Re: Resignation

I am hereby notifying you that I plan to leave employment with USD434 on or before February 16th, 2023.

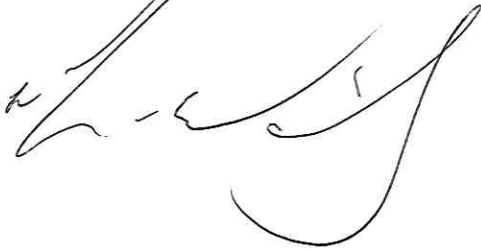

I have very much appreciated the opportunity to work with the great kids, staff and community of this organization and I want to ensure a successful transition for any potential replacement.

My wife is retiring at on this date and we will probably have a few things to do and adventures to go on.

Let me know if you need anything further from me,

Again thanks for the opportunity and your willingness to give this old fella a chance to stay busy!
