## Curriculum and Assessment Updates - November 2023

### Curriculum

- Amplify
  - The middle school ELA teachers completed their final PD with Amplify on Nov. 6. They are still very happy with the curriculum.
- Math
  - Janis Heigl, recently spent Nov. 6 and 7th with the team at OAC completing a more in depth training in BRIDGES, including our new teachers receiving their initial training. Janis was able to model lessons and also observe teachers teaching Bridges in their classrooms.

### Highly Qualified Mentors

The Highly Qualified Mentors concluded their training in late October, having acquired valuable knowledge and skills in instructional coaching during the program. Moving forward, the team will maintain regular quarterly meetings to further develop an instructional playbook that can assist both mentees and any teachers seeking additional guidance.

### TASN

Our next TASN leadership training is scheduled for Nov. 28. We will continue work on our district priorities and future plans.

- District Priorities
  - Rigor - Math and ELA (Student Achievement)
  - Instruction (Staff retention)
  - CTE/IPS

- SEL

**Assessment**

Tonight during our meeting I will be reviewing district FastBridge Data and State Assessment Interim Data.
